Re: Notification of Planned Physical Alteration to the Facility, Secondary Containment Liner Installation and Drainage System Improvements, L606 New York Harbor Expansion Project, East Yard, dated April 23, 2018
Former Chevron Perth Amboy Facility
Perth Amboy, Middlesex County, New Jersey
SRP PI No. 003621, EA No. RPC000005

Dear Mr. Vargas,

The New Jersey Department of Environmental Protection (Department) is in receipt of Notification of Planned Physical Alteration to the Facility, Secondary Containment Liner Installation and Drainage System Improvements, L606 New York Harbor Expansion Project, East Yard, dated April 23, 2018. The Department acknowledges that the alterations to the Former Chevron Perth Amboy Facility in Perth Amboy, Middlesex County, NJ will be completed by Buckeye Perth Amboy Terminal LLC, the new owner of the facility, though the April 2018 Notification was submitted by Chevron Environmental Management Company pursuant to the Resource Conservation and Recovery Act (RCRA) and the Hazardous and Solid Waste Amendments (HSWA) Permit of 2013. The Department has reviewed the April 2018 Notification and finds the alternations and the methods referenced to deal with contaminated materials encountered during construction acceptable. If not already done so, the Department also requests that this and any previously reviewed facility alternations be included in the next quarterly report for the applicable area of concern following completion of construction activities.

If you have any questions, please contact me at (609)984-6065, or at Lynn.Vogel@dep.nj.gov.

Sincerely,

Lynn Vogel, PG, CHMM
